## Assembly Instructions

### Step 1

Place table throw over table. Position table throw with top seam at rear of table and image is centered on front.

## Converting Instructions

### Step 1

Place table throw 8' throw over 6' table or 6' throw over 4' table. Position table throw with top seam at rear of table.

### Step 2

Grasp the velcro tab closest to front of table. Align fabric and begin rotating fabric toward the back of the table.

### Step 3

Wrap throw tightly around top edge of the table. Attach velcro hook tab to velcro loop tab on back of throw. Repeat process for other side of throw.

## Converting Instructions (cont.)

### Step 4

Attach remaining velcro hook tab and attach to velcro loop tab found underneath the top, back edge of table throw. Repeat process for other side of throw.

### Step 5

The remaining fabric will be gathered neatly.

## Disassembly Instructions

### Step 1

Remove the throw from the table. Lay out throw flat on the floor.

### Step 2

Fold throw in thirds following seam, then in half length-wise. The throw should now be long and narrow. Now fold the throw about every two feet to get it to fit into original poly bag or a similar storage bag.

## Storage Instructions

Store in a cool, dry place preferably in a poly bag.

## Care Instructions

Recommended for indoor use only.

Machine wash on gentle cycle using mild detergent. Tumble dry on low heat setting only. Do Not dry clean. Do Not iron.

# EuroFit Fabric Display 8' and 10' Floor

## Product Parts

- 1 - Straight Shock Cord Pole (x2)
- 2 - Curved Shock Cord Pole (x2)
- 3 - Corners (x4)
- 4 - Support Shock Cord Pole

**Note:** Each pole end is labeled for ease of assembly.

## Display Set-Up

### Step 1

Begin by removing the parts from the Carry Case and place on a clean, flat surface.

### Step 2

Assemble the Straight and Curved Shock Cord Poles (1,2) by placing tapered end of one pole into the large end of the next pole until the release button snaps into place.

### Step 3

Create the bottom of the frame by attaching the Curved End Poles (3) to the assembled Curved Shock Corded Pole (2). Connect the other side of the Curved Shock Corded Pole (2) to the Curved End Pole (3).

### Step 4

Create the sides of the frame by attaching the assembled Straight Shock Corded Poles (1) to their corresponding Curved Ends (3).

### Step 5

Lay the frame on the floor (so the Curved Shock Cord Poles (2) is raised off the floor).

### Step 6

Attach the open side of the assembled Straight Shock Cord Poles (1) to their corresponding Curved Ends (3).

## Display Set-Up Continued...

### Step 7

Complete the top of the frame by attaching the remaining Curved Shock Corded Pole (2) to the corresponding assembled Curved End Poles (3).

### Step 7

Before adding the graphic, make sure your floor is clean under the assembled frame.

Position the graphic facing the inner curve of the poles and slip it on until the frame is snug inside the graphic.

\*This step is easier with two people, but can be done by one person.

### Step 8

Insert the Support Shock Corded Pole (4) into the holes found in the center of each of the Curved Shock Corded Poles (2).

### Step 8

Once the graphic is snug, zip the graphic shut.

Easily lift the display and move to desired location.

## Storage
